EXHIBIT AT THE AAP 2020 ANNUAL MEETING

The Premier Live-Learning Event In Periodontics

For 106 years, the American Academy of Periodontology (AAP) Annual Meeting has been the premier live-learning and networking event in periodontics. In 2020, the Annual Meeting heads to the Aloha State: Hawaii. More than 2,500 attendees are expected to make their way to the Hawaii Convention Center, located on the island of Oahu, to participate in continuing education opportunities, get updates on current scientific research, and network with periodontal professionals from around the world. Known as “The Gathering Place,” Oahu’s tropical climate, the breathtaking sights of Waikiki Beach, and the tastes of downtown Honolulu are the perfect backdrop for the Academy’s 2020 Annual Meeting Exhibition.

The AAP 2020 Annual Meeting is presented in collaboration with the Japanese Society of Periodontology and the Japanese Academy of Clinical Periodontology.

**Linear Booth**

Linear Booths have only one side exposed to an aisle and are generally arranged in a series along a straight line. They are also called “in-line” booths.

**Dimensions**

For reconfiguration, floor plan design in increments of 10 ft (3.05m) has become the de facto standard in the United States. Therefore, unless constricted by space or other limitations, Linear Booths are most commonly 10ft (3.05m) wide and 10ft (3.05m) deep, i.e. 10ft by 10ft (3.05m by 3.05m). A maximum back wall height limitation of 8ft (2.44m) is generally specified.

**Use of Space**

Regardless of the number of Linear Booths utilized, e.g. 10ft by 20ft (3.05m by 6.10m), 10ft by 30ft (3.05m by 9.14m), 10ft by 40ft (3.05m by 12.19m), etc. display materials should be arranged in such a manner so as not to obstruct sight lines of neighboring exhibitors. The maximum height of 8ft (2.44m) is allowed only in the rear half of the booth space, with a 4ft (1.22m) height restriction imposed on all materials in the remaining space forward to the aisle. Note: When three or more Linear Booths are used in combination as a single exhibit space, the 4ft (1.22m) height limitation is applied only to that portion of exhibit space which is within 10ft (3.05m) of an adjoining booth.

**Corner Booth**

A Corner Booth is a Linear Booth exposed to aisles on two sides. All other guidelines for Linear Booths apply.

**Perimeter Booth**

A Perimeter Booth is a Linear Booth that backs to an outside wall of the exhibit facility rather than to another exhibit.

**Dimensions and Use of Space**

All guidelines for Linear Booths apply to Perimeter Booths except that the typical maximum back wall height is 12ft (3.66m).

No hanging signs are allowed.
**End-cap Booth**

An End-cap Booth is exposed to aisles on three sides and composed of two booths.

**Dimensions**

End-cap Booths are generally 10ft (3.048m) deep by 20ft (6.096m) wide. The maximum backwall height of 8ft (2.438 m) is allowed only in the rear half of the booth space, and within 5ft (1.524m) of the two side aisles, with a 4ft (1.219m) height restriction imposed on all materials in the remaining space forward to the aisle.

**Peninsula Booth**

A Peninsula Booth is exposed to aisles on three (3) sides and composed of a minimum of four booths. There are two types of Peninsula Booths: (a) one which backs up to Linear Booths, and (b) one which backs to another Peninsula Booth and is referred to as a “Split Island Booth.”

**Dimensions**

A Peninsula Booth is usually 20ft x 20ft or larger. When a Peninsula Booth backs up to two Linear Booths, the backwall is restricted to 4ft (1.219m) high within 5ft (7.524m) of each aisle, permitting adequate line of sight for the adjoining Linear Booths. 16ft (4.876m) is a typical maximum height allowance, including signage for the center portion of the backwall.

**Island Booth**

An Island Booth is typically 20ft x 20ft or larger, although it may be configured differently.

**Dimensions**

An Island Booth is typically 20ft x 20ft or larger, although it may be configured differently.

**Use of Space**

The entire cubic content of the space may be used up to the maximum allowable height, which is usually 16ft (4.876m), including signage.

In addition, Academy rules and regulations mandate that the booth design/configuration must maintain 50% see-through visibility from all four aisles. Line-of-site visibility elements must not be greater than 4’ft (7.22m) high.
